

ACCELERATE YOUR LEASING PROCESS

Salesforce Accelerator for Real Estate Leasing

This Product is a pre-built solution that streamlines the leasing process from lead capture to deal closure. Built on Salesforce platform, it enables businesses to quickly and effectively enhance their leasing operations and maximize time-to-value.

Product Core Value

Faster Go To Market

Scalability

This solution scales with your business size and requirements

Faster Time-To-Value

Expedited Leasing Process

Reduces lease cycle time for faster occupancy & revenue generation

Go live in as fast as 1 week

Ready-to-Use Best Practices

Benefit from a solution built with industry expertise and proven methodologies

Leasing Accelerator: Listing to Lease in One Seamless Journey

Inventory

Explore

Follow-up

Booking

Deal Closure

The team manages properties, checks available residential & commercial units with detailed information.

The customer explores the company's channels to find a property. Lead is captured.

Leasing agent is notified and contacts the customer for more information. Lead is qualified and converted.

A new unit booking deal is presented by the leasing agent, including rent, fees, payment schedule, and lease details.

Based on customer response, deal is closed and lease is generated.

Vacancy Rate Reduction

Lease Cycle Time Reduction

Higher Lead-to-Lease Conversion Rate

End-to-End Leasing Solution

Real-Time Insights
